Dear Robert,

I wanted to write a letter to thank you for the transformative impact that you have had for my company BootRoxx by conducting the Future By Design seminar. I knew that the experience would be impactful, but was not aware of the deep and strong understanding it helped to create for my company employees and the company culture that we now work with in.

By doing the Future by Design two part seminar I feel that my company is now built on a strong foundation of integrity, understanding, and clear and defined visions for the future. Looking back at how the company was run before I see that it was built on quick sand. The opportunity for success is clear and defined and everyone in the company is enrolled in the vision. I became clear about the loyalty of the people who work for me and that they are as engaged and devoted to the success of my company as I am. We built out our vision as a team and we are all accountable to each other to live into that vision.

BootRoxx is a company with a bold promise that is 100% all of the time. We are a high performance leadership team with a culture that nurtures 100% engagement, and will increase sales by 100% year after year for five years. We will exceed profits and expectations for our employees, team members, and investors.

You have an amazing talent for opening up opportunity, communication, and integrity in the workplace that transcends into every day life. I appreciate and value you and the work that you have done for me and for BootRoxx. I am excited for my future, and excited to come to work everyday to live into our Future by Design.

With gratitude and respect,

Owner/ BootRoxx
