Reno, NV 89511

Dear Robert,

After another miraculous three day session for our Organizational Future by Design, we are amazed with the results. There is commitment, alignment, love, power, trust, responsibility, accountability, and integrity present. Each participant was deeply moved by the whole experience.

The work we did together has been an enabling power in helping our organization complete the past and design its future. Without this grace, we would still be in a state of frustration. This coaching has and will continue to help our families, business, communities and all people we come into contact with.

The ability to first enroll the board and then the large group was outstanding. Barry's full month investment was also critical to the success of the sessions.

You, Richard, and Gisele masterfully managed our large group in a way that allowed each person to participate in a way that seemed impossible. Thank you. This work has truly unified our family and the business family in a way that never seemed possible. The whole process of our Organizational Future by Design was wonderful and complete.

As an organization we lacked unity, vision, commitment, integrity, responsibility, trust, and accountability. All of these needs were addressed and are now present within Driscoll Management Company. There is an excitement like never before. We still have much work to do but are confident, going forward, that we will not fail. We thank you and your team for all of your speaking and listening.

With appreciation,

Driscoll Management Company
