Dear Robert

Leaders for a Strategic Future course

Thank you Robert, for coaching me in amazing transformational experience. The work we did enables me to continue growing as a leader long after the course is completed.

You smashed my preconceived view of what it meant to be a leader. This made it incredibly easy to be the leader I wanted to be, rather than the one I thought I had to be. I will draw on the learnings & work we did indefinitely as I master leadership.

It is amazing how much has been achieved within our business in such a short period of time since our work together. This is generated from the conversations we are now having and the ones we are not having.

Congratulation Robert on developing and delivering such a truly transformational piece of work in the field of leadership which is in desperate need for people in the world today.

Yours sincerely  
**Jones Lang LaSalle**
